Not-for-Profit Groups Chequing Account Package

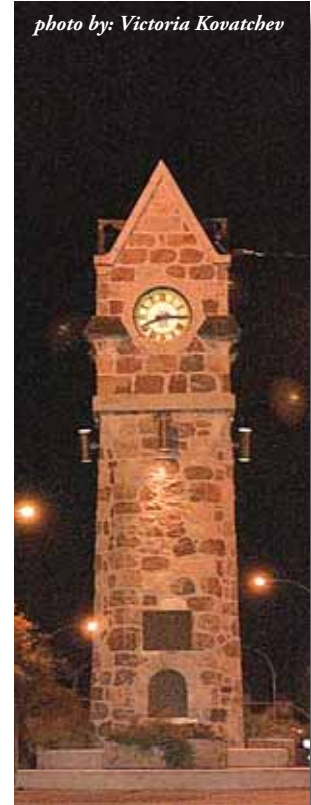

Community Builder Account

We believe in the volunteer spirit in the communities we serve. That's why we support those not-for-profit organizations that serve their communities with our Community Builder Account. Our way of supporting their efforts and acknowledging their contribution to our communities is to waive the package fees on their chequing accounts. Because their account activity is very similar to that of commercial accounts, they will receive the benefits of the Wright Business Ultra account, but with no monthly account fee. We will also provide starter cheques for new non-profit memberships at no charge.

Not-for-profit organizations typically include:

- Service clubs
- Churches
- Community and school clubs
- Non-profit associations, such as minor sports, theatre groups
- Societies and Lodges
- Fundraisers
